

Uzbek transcript:

O'zbekistondagi sog'liqni saqlash tizimi haqida gapiradigan bo'lsak, birinchi bo'lib aytadigan narsam shuki, O'zbekistonda sog'liq...salomatlik tizimi, tibbiy xizmat bepul hisoblanadi. Yani so'g'liqni saqlash tizimi bu davlat tasarrufida, barcha kasalxonalar, klinikalar, poliklinikalar, hammasi davlat tasarrufida, yani istagan shaxs betob bo'lganda, kasal bolib qolganda, demak bu joylarga borib, bepul xizmat olishi mumkin, yani doktorlarning xizmatlari bu poliklinikalarda bepul nisoblanadi. Endi umuman Amerikadagi sog'liq tizimi bilan O'zbekistondagi sog'liq tizimi haqida gapiradigan bo'lsak, ularni taqqoslaydigan bo'lsak, ular umuman, keskin tubdan farq qiladi. Chunki Amerikada sog'liq tizimi bu bepul emas, davlat tasarrufida hisoblanmaydi, bu shaxsiy tizim hisoblanadi. Yani kasal bo'lganingizda, umuman doktorni xizmatkariga muhtoj bo'lganingizda, majbur bo'lagningizda doim pul to'lashingizga to'g'ri keladi. Yana bundan tashqari shuniyam aytish kerakki, O'zbekistonda ham bu tizim ancha rivojlanib boryapti, hozirgi kunda juda ko'p shaxsiy klinikalarni ham ko'rish mumkin. Masalan, tish doktorlari oz'larining ...o'zlarining klinikalarini ochishayapti. Bundan tashqari, umuman turli yo'nalishdagi doktorlar o'z shaxsiy klinikalarini ochishayapti va bu shaxsiy klinikalarda O'zbekistonda umuman xizmat sifati ancha yaxshilanib boryapti, umuman...umuman olganda O'zbekistondagi sog'liq tizimidagi xizmat sifatlari ancha yaxshi.

English translation:

If we speak about the health care system in Uzbekistan, the first thing I will say is that healthcare, medical services are free in Uzbekistan. It means that government runs the healthcare system, all the hospitals and clinics. All of them belong to the government, i.e. any person who gets sick or ill, can go to these places and get a free service. The services the doctors provide there is free...If we generally speak about the healthcare in Uzbekistan and in the US, if we compare them, they are completely different, because in the US, healthcare is not free. It is not controlled by the government. It is a private sector. You will have to pay, if you are sick and in need of a doctor or need medical services. Also we need to say that this system is developing in Uzbekistan. Nowadays you can see a lot of private clinics too. For example, dentists are opening their own clinics. Besides, all kinds of doctors are opening their own clinics, and in these clinics, in Uzbekistan the quality of services is getting better. In general...the quality of healthcare system is quite good.

About CultureTalk: CultureTalk is produced by the Five College Center for the Study of World Languages and housed on the LangMedia Website. The project provides students of language and culture with samples of people talking about their lives in the languages they use everyday. The participants in CultureTalk interviews and discussions are of many different ages and walks of life. They are free to express themselves as they wish. The ideas and opinions presented here are those of the participants. Inclusion in CultureTalk does not represent endorsement of these ideas or opinions by the Five College Center for the Study of World Languages, Five Colleges, Incorporated, or any of its member institutions: Amherst College, Hampshire College, Mount Holyoke College, Smith College and the University of Massachusetts at Amherst.
