Practicing Numbers

Students always need a lot of practice with numbers and there are a variety of exercises that can be simultaneously fun and educational. As with all constructions, there is no such thing as too much practice.

Practicing Numbers I (Hindi)

Here students are counting by 2s – forward and backward.

Practicing Numbers II (Turkish)

Turkish bingo!

Practicing Numbers III (Turkish)

Counting.

Practicing Numbers IV (Turkish)

Practicing giving phone numbers. This can be cultural as well because students should learn to read the numbers with the pattern of the target culture.
