English translation:

S: What about foreign investments?

A: Foreign investments? There are many French companies or even American companies. You would find the American companies in the Sahara. It seems that, wherever there is oil, you will find Americans. It would be great if one can benefit not just from petroleum, and one should, sort of, give and take. We should import and learn their technologies. This will be a great thing. Yes, there are some partnerships between the Algerians and America in this area. There are foreign investments in petroleum and gas – they especially do it with the company Sonatrach. Sonatrach is a big Algerian company, and it is also considered one of the biggest companies in the world.
